

INDEX TO VOL. XCII. (B)

- Anthocyanins and anthocyanidins. Part IV.—(Everest and Hall), 150.
- B. coli communis*, enzymes of. Part V.—(Grey and Young), 135.
- Baker (J. G.) Obituary notice of, xxiv.
- Briggs (G. E.) See Kidd and others.
- Chambers (H.) See Russ and others.
- Cholesterol, origin and destiny of, in animal organism. XII.—(Gardner and Fox), 358.
- Cobra venom, on natural and acquired immunity to (Gunn and Heathcote), 81.
- Colour vision, quantum theory of (Joly), 219.
- Compton (A.) Studies in the Mechanism of Enzyme Action. I.—*Rôle of the Reaction of the Medium in Fixing the Optimum Temperature of a Ferment*, 1.
- Croonian Lecture. See Head.
- De Souza (D. H.) and Hewitt (J. A.) Idio-Ventricular Periodicity, 385.
- Dictyokinesis in germ cells (Ludford and Gatenby), 235.
- Doncaster (L.) Obituary notice of, xli.
- Echinus miliaris*, reversed asymmetry of plutei of (Ohshima), 168.
- Edridge-Green (F. W.) The Effect of Red Fatigue on the White Equation, 232.
- Ehrlich (P.) Obituary notice of, i.
- Electric change in muscle and nerve, energy in (Hill), 178.
- Enzyme action, mechanism of (Compton), 1.
- Enzymes of *B. coli communis* (Grey and Young), 135.
- Everest (A. E.) and Hall (A. J.) Anthocyanins and Anthocyanidins. Part IV.—Observations on : (a) Anthocyan Colours in Flowers, and (b) the Formation of Anthocyanins in Plants, 150.
- Flint Implements from Selsey Bill (Lankester), 162.
- Fox (F. W.) See Gardner and Fox.
- Fraser (Sir T. R.) Obituary notice of, xi.
- Gardner (J. A.) and Fox (F. W.) On the Origin and Destiny of Cholesterol in the Animal Organism. Part XII.—On the Excretion of Sterols in Man, 358.
- Gatenby (J. B.) See Ludford and Gatenby.
- Golgi apparatus and cell division (Ludford and Gatenby), 235.
- Grey (E. C.) and Young (E. G.) The Enzymes of *B. coli communis*. Part V.—(a) Anaerobic Growth followed by Anaerobic and Aerobic Fermentation. (b) The Effects of Aeration during the Fermentation, 135.
- Growth of *Helianthus annuus*, quantitative analysis of (Kidd and others), 368.
- Growth of seedlings in wind (Hill), 28.
- Gunn (J. A.) and Heathcote (R. St. A.) Cellular Immunity: Observations on Natural and Acquired Immunity to Cobra Venom, 81.
- Hæmolytic activity of chemical substances, method for investigating (Ponder), 285.
- Hall (A. J.) See Everest and Hall.
- Head (H.) Release of Function in the Nervous System, 184.
- Heathcote (R. St. A.) See Gunn and Heathcote.

- Helianthus annuus*, analysis of growth of (Kidd and others), 368.
- Herring (P. T.) The Effect of Thyroid Feeding and of Thyro-parathyroidectomy upon the Pituitrin Content of the Posterior Lobe of the Pituitary, the Cerebro-spinal Fluid, and Blood, 102.
- Hill (A. V.) The Energy involved in the Electric Change in Muscle and Nerve, 178.
- Hill (L.) The Growth of Seedlings in Wind, 28.
- Hogben (L.) Studies on Synapsis. III.—The Nuclear Organisation of the Germ Cells in *Libellula depressa*, 60.
- Idio-ventricular periodicity (De Souza and Hewitt), 385.
- Immunity, cellular (Gunn and Heathcote), 81.
- “Intertraction” between Albuminous Substances and Saline Solutions (Wright), 118.
- Jolly (W. A.) Reflex Times in the South African Clawed Frog, 31.
- Joly (J.) A Quantum Theory of Colour Vision, 219.
- Kellaway (C. H.) The Effect of certain Dietary Deficiencies on the Suprarenal Glands, 6.
- Kidd (F.) and others. A Quantitative Analysis of the Growth of *Helianthus annuus*. Part I.—The Respiration of the Plant and of its Parts throughout the Life Cycle, 368.
- Lakes, development of vegetation in the English —, evolution of glacial lakes and rock basins (Pearsall), 259.
- Lankester (Sir R.) A Remarkable Flint Implement from Selsey Bill, 162.
- Lapworth (C.) Obituary notice of, xxxi.
- Ling (A. R.) and Nanji (D. R.) On the Longevity of certain Species of Yeast, 355.
- Ludford (R. J.) and Gatenby (J. B.) Dictyokinesis in Germ Cells, or the Distribution of the Golgi Apparatus during Cell Division, 235.
- MacBride (E. W.) (Note to Ohshima's paper on Echinus), 175.
- McCarrison (R.) Observations on the Effects of Fat Excess on the Growth and Metamorphosis of Tadpoles, 295.
- Mackie Ethnological Expedition to Central Africa (Roscoe), 209.
- Moore (B.), Whitley (E.), and Webster (T. A.) Studies of Photo-synthesis in Marine Algae.—1. Fixation of Carbon and Nitrogen from Inorganic Sources. 2. Increase of Alkalinity of Sea Water as a Measure of Photo-synthesis, 51.
- Muscle and nerve, energy in electric change in (Hill), 178.
- Nanji (D. R.) See Ling and Nanji.
- Nervous system, release of function in (Head), 184.
- Obituary Notices of Fellows Deceased :—
- | | |
|-------------------------|----------------------|
| Ehrlich, Paul, i. | Baker (J. G.), xxiv. |
| Schwendener (S.), viii. | Lapworth (C.), xxxi. |
| Fraser (Sir T. R.), xi. | Doncaster (L.), xli. |
| Osler (Sir W.), xvii. | |
- Ohshima (H.) Reversal of Asymmetry in the Plutei of *Echinus miliaris*, 168.
- Osler (Sir W.) Obituary notice of, xvii.
- Pearsall (W. H.) The Development of Vegetation in the English Lakes, considered in relation to the General Evolution of Glacial Lakes and Rock Basins, 259.
- Photo-synthesis in marine algae, studies of (Moore and others), 51.
- Pituitary content, thyroid feeding, and thyro-parathyroidectomy (Herring), 102.
- Ponder (E.) A Method for Investigating the Haemolytic Activity of Chemical Substances, 285.

- Red fatigue and white equation (Edridge-Green), 232.
 Reflex (flexor) evoked by single break-shock (Sassa and Sherrington), 108.
 Reflex preparations, effects of constant galvanic currents on (Sassa), 341.
 Reflex responses to rhythmical stimulation (Sassa), 328.
 Reflex times in frog (Jolly), 31.
 Reflexes (break-shock) and "supramaximal" contraction-response (Sherrington), 245.]
 Roscoe (Rev. J.) Preliminary Report of the Mackie Ethnological Expedition to Central Africa, 209.
 Russ (S.), Chambers (H.), and Scott (G. M.) On the Local and Generalised Action of Radium and X-Rays upon Tumour Growth, 125.
 Sassa (K.) Observations on Reflex Responses to Rhythmical Stimulation in the Frog, 328 ; — On the Effects of Constant Galvanic Currents upon the Mammalian Nerve-Muscle and Reflex Preparations, 341.
 Sassa (K.) and Sherrington (C. S.) On the Myogram of the Flexor-reflex evoked by a Single Break-shock, 108.
 Schwendener (S.) Obituary notice of, viii.
 Scott (G. M.) See Russ and others.
 Sherrington (C. S.) Break-shock Reflexes and "Supramaximal" Contraction-response of Mammalian Nerve-muscle to Single Shock Stimuli, 245.
 Sherrington (C. S.) See Sassa and Sherrington.
 Suprarenal glands, effect of dietary deficiencies on (Kellaway), 6.
 Synapsis, studies on. III.—(Hogben), 60.
 Tadpoles, fat excess and growth, etc., of (McCarrison), 295.
 Thyroid feeding, etc., and pituitrin-content (Herring), 102.
 Tumour growth, action of radium and X-rays upon (Russ and others), 125.
 Vegetable assimilation and respiration, researches on. XIV.—(Wilmott), 304.
 Webster (T. A.) See Moore and others.
 West (C.) See Kidd and others.
 Whitley (E.) See Moore and others.
 Wilmott (A. J.) Experimental Researches on Vegetable Assimilation and Respiration. XIV.—Assimilation by Submerged Plants in Dilute Solutions of Bicarbonates and of Acids : an Improved Bubble-counting Technique, 304.
 Wright (Sir A. E.) On "Intertraction" between Albuminous Substances and Saline Solutions, 118.
 Yeast, longevity of (Ling and Nanji), 355.
 Young (E. G.). See Grey and Young.

END OF THE NINETY-SECOND VOLUME (SERIES B).
